Subject: Public Comment Draft Cannabis EIR

Please accept and add my comments concerning cannabis cultivation in Santa Cruz County.

If cannabis cultivation is permitted to be grown, it should be grown within existing agricultural zones.

Cannabis should not be grown in the mountains, where sensitive land and habitat will be damaged; it should not be grown in or near residential neighborhoods, where it disrupts the peace; and it should not be grown in commercial space because it is incompatible with existing land use.

Cannabis cultivation should be regulated like any other agricultural product and restricted to areas appropriate for large growing operations.
