Residential Districts and Uses

(bold font, underlining, column headings and indentations have been added for readability)

13.10.321 Purposes of residential districts.

(A) General Purposes. In addition to the general objectives of this Chapter (13.10.120) the residential districts are included in the Zoning Ordinance in order to achieve the following purposes:

1. To provide areas of residential use in locations and at densities consistent with the County General Plan.
2. To preserve areas for primarily residential uses in locations protected from the incompatible effects of nonresidential land uses.
3. To establish a variety of residential land use categories and dwelling unit densities which provide a choice of diversified housing opportunities consistent with public health and safety.
4. To achieve patterns of residential settlement that are compatible with the physical limitations of the land and the natural resources of the County and that do not impair the natural environment.
5. To ensure adequate light, air, privacy, solar access, and open space for each dwelling unit.
6. To maximize efficient energy use and energy conservation in residential districts, and to encourage the use of locally available renewable energy resources.
7. To provide adequate space for off-street parking of automobiles.
8. To provide areas of residential use consistent with the capacity of public services, the Urban Services Line and Rural Services Line and the reserve capacity policy of the Local Coastal Program Land Use Plan for tourist services. To minimize traffic congestion and avoid the overloading of utilities by preventing the construction of buildings of excessive size in relation to the land around them.
9. To protect residential properties from nuisances, such as noise, vibration, illumination, glare, heat, unsightliness, odors, dust, dirt, smoke, traffic congestion, and hazards such as fire, explosion, or noxious fumes.

(B) Specific **“RA” Residential Agricultural District** Purposes. To provide areas of residential use where development is limited to a range of non-urban densities of single-family dwellings in areas outside the Urban Services Line and Rural Services Line; on lands suitable for development with adequate water, septic system suitability, vehicular access, and fire protection; with adequate protection of natural resources; with adequate protection from natural hazards; and where small-scale commercial agriculture, such as animal-keeping, truck farming and specialty

crops, can take place in conjunction with the primary use of the property as residential.

(C) Specific **“RR” Rural Residential District** Purposes. To provide areas of residential use where development is limited to a range of nonurban densities of single-family dwellings in areas having services similar to “RA” areas, but which are residential in character rather than agricultural due to the pattern of development and use in the area and/or the presence of constraints which would preclude the use of the property for agriculture.

(D) Specific **“R-1” Single-Family Residential District** Purposes. To provide for areas of predominantly single-family residential development in areas which are currently developed to an urban density or which are inside the Urban Services Line or Rural Services Line and have a full range of urban services, or are planned for a full range of urban services.

(E) Specific **“RB” Single-Family Ocean Beach Residential District** Purposes. To accommodate single family dwellings on existing lots of record in the vicinity of the cliffs and the ocean beach; where lots abut on and obtain access from a street which is generally parallel to both the beach and the cliff, and which has an elevation of not more than 20 feet above sea level; and where either the seaward right-of-way line of the street or the seaward boundary line of the lots on the ocean side of the street abut open beachlands which are unobstructed to the mean high tide line.

(F) Specific **“RM” Multi-Family Residential District** Purposes. To provide for areas of residential uses with a variety of types of dwellings in areas which are currently developed to an urban density or which are inside the Urban Services Line or Rural Services Line and have a full range of urban services. (Ord. 560, 7/14/78; Ord. 653, 10/17/60; Ord. 839, 11/28/62; Ord. 1092, 6/8/65; Ord. 1418, 5/25/69; 1891, 6/19/73; 3186, 1/12/82; Ord. 3344, 11/23/82; 3432, 8/23/83; 3501, 3/6/84; 4346, 12/13/94; 4406, 2/27/96; 4416, 6/11/96; 4496-C, 8/4/98)

13.10.322 Residential uses*.

(A) Principal Permitted Uses.

(1) In the Coastal Zone, the principal permitted uses in the residential districts shall be as follows:

“RA”:	single-family residential and agricultural (rural)
“RR”:	single-family residential (rural)
“R-1”:	single-family residential (urban, rural)
“RB”:	single-family residential (oceanfront, urban)
“RM”:	multiple-family residential (urban) including appurtenant accessory uses and structures

(2) Principal permitted uses are all denoted uses requiring a Level IV or lower Approval or as otherwise denoted with the letter “P” in the footnotes to the Residential Uses Chart in subsection (b) of this section. In the Coastal Zone, actions to approve other than permitted uses are appealable to the Coastal Commission in accordance with the provisions of Chapter 13.20 of the County Code relating to Coastal Zone Permits, and in some cases, as provided in Chapter 13.20, any development is appealable.

(b) Allowed Uses.

(1) The uses allowed in the residential districts shall be as provided in the following Residential Uses Chart below. A discretionary approval for an allowed use is known as a “Use Approval” and is given as part of a “Development Permit” for a particular use. The type of permit processing review, or “Approval Level,” required for each use in each of the residential zone districts is indicated in the chart. The processing procedures for Development Permits and for the various Approval Levels are detailed in Chapter 18.10 Permit and Approval Procedures. The Approval Levels given in this chart for structures incorporate the Approval Levels necessary for processing a building permit for the structure. Higher Approval Levels than those listed in this chart for a particular use may be required if a project requires other concurrent Approvals, according to Section [18.10.123](#).

(2) Timber harvesting and associated operations, requiring approval of a Timber Harvesting Plan by the California Department of Forestry, are not allowed uses in the Residential zone districts.
